EDUCATION

- University of Alberta**, Edmonton, AB, Canada 2014 – 2019
Ph.D. in Social and Cultural Psychology
Thesis: *Influence of Cultural Contexts on Daily Stress Experiences: Perception of Interpersonal vs. Non-Interpersonal Situations among European Canadian and Japanese Undergraduate Students*
Supervisor: Takahiko Masuda
- New York University**, New York, NY, U.S. 2010 – 2012
M.A. in Psychology
Thesis: *Valence Effects on Person Perception*
Supervisor: James S. Uleman
- Kyungpook National University**, Daegu, South Korea 2005 – 2009
B.Sc. in Biotechnology (minor in Psychology)
Advisor: Jinwoo Park

RESEARCH EXPERIENCE

- Postdoctoral Fellow, Women's College Hospital & Stepped Care Solutions.** 2023 – present
Academic supervisor: Ibukun Abejirinde | Health system supervisors: Mary Bartram & Quynh Pham
- Lead a project as principal investigator to assess the impacts and lessons learned from the implementation and close-out of Wellness Together Canada (a federal mental health and substance use health portal), implemented across provinces and territories. The research aims to inform future directions in digital mental health and substance use health intervention policy, programming and approaches to implementation.
 - Conduct a user impact survey (currently undergoing analysis) and am awaiting ethics approval to proceed with key informant interviews, including decision makers, service providers, and administrative staff in the mental health and substance use health sectors.
 - Work as an embedded researcher at Stepped Care Solutions, guiding research strategy and developing grant proposals.
- This work is funded through the Canadian Institutes of Health Research (CIHR) Health System Impact postdoctoral fellowship.*
- Postdoctoral Researcher, University of Montreal Hospital Research Centre** 2020 – 2023
Youth Mental Health and Technology Lab (<https://www.ymhtech.com/>)
Supervisor: Shalini Lal
- Developed and led a postdoctoral project aimed at examining the role of digital health in improving access to mental health services among Asian Canadians (data collection is currently underway).

- Analyzed quantitative and qualitative data and disseminated knowledge for the Horyzons-Canada project—an online therapeutic platform to support recovery in individuals receiving specialized services for first-episode psychosis. This intervention was implemented in two clinical healthcare settings (CHUM and Douglas).
- Facilitated the implementation and evaluation of an online referral tool (PRISM) to access mental health services for youth and families. This innovation has been implemented in three Canadian sites: ACCESS Open-Minds Chatham-Kent (Ontario), RIPAJ-Montreal (Quebec), and Aire Ouverte-CCSMTL (Quebec).
- Contributed to the design and writing of a protocol for conducting a scoping review of online referral services to facilitate access to mental health care.
- Submitted and amended human research ethics applications and contributed to the submission of a grant proposal for the Horyzons-Canada project.

This work resulted in 4 publications; one manuscript is under review. This work was funded through a Fonds de Recherche du Québec–Santé (FRQS), DIVERT Mental Health, & Mitacs Accelerate Postdoctoral Fellowships

Doctorate Student, University of Alberta

2014 – 2019

Culture and Cognition Lab (<https://sites.psych.ualberta.ca/cultpsy/>)

Supervisor: Takahiko Masuda

- Participated in knowledge dissemination through peer-reviewed publications and conference presentations.
- Initiated and fostered collaborations with Dr. Keiko Ishii at Nagoya University in Japan and Dr. Sun W. Park at Korea University in South Korea
- Mentored honors and undergraduate independent research.
- Trained/oversaw research assistants.

*This work resulted in 10 publications, among them my dissertation published in *Personality and Social Psychology Bulletin*.*

Masters Student, New York University

2011 – 2014

Social Cognition Lab

Supervisor: James S. Uleman

- Participated in knowledge dissemination through peer-reviewed publications and conference presentations
- Worked in collaboration with Dr. Yuki Shimizu at Waseda University in Japan
- Developed custom software in Medialab and DirectRT for data analysis
- Trained/oversaw research assistants

*This work resulted in 2 publications in *Social Cognition* and *Journal of Experimental Social Psychology*.*

Research Assistant, Columbia University Business School

2011 – 2012

Supervisor: Richard Ronay

- Coordinated all research processes, including recruiting participants, developing experimental materials, and completing data entry and analysis for a project titled *Effects of Hormones and Endogenous Goal States on Visual Perception under Conditions of Binocular Rivalry*

Research Assistant, NYU Steinhardt School of Culture

2011

Supervisors: Diana Hughes & Elise Cappella

- Investigated the friendship patterns of minority students in the transition to middle school and evaluated potential intervention programs for the improvement of a school environment
- Participated in longitudinal data entry and management
